Housing Inventory Count Glossary of Terms

Program Type: Identify the appropriate program type (i.e. Emergency Shelter, Transitional Housing).

- Emergency Shelter:** Total number of emergency shelter beds and units that are designated to serve people who are homeless and are recognized as part of the formal homeless system.
- Transitional Housing:** Total number of transitional housing beds and units that are designated to serve people who are homeless and are recognized as part of the formal homeless system. Existing SHP-TH programs that use a "Transition in Place" model and RRHD projects funded under the 2008 NOFA should be categorized as transitional housing.
- Permanent Supportive Housing:** Total number of permanent supportive housing beds and units that are designated to serve people who are homeless and are recognized as part of the formal homeless system.

Program Name: Name of the program.

Target Population A (optional): Identify the target population served by each program. The target population represents approximately 75 percent of the clients served by the program. Programs that do not target specific populations or that have opted not to track Target Population A information may leave the Target Population A column blank.

Target Population B: Identify the subpopulation served by each program. Programs that do not target specific subpopulations may leave the Target Population B column blank.

Funds from HUD McKinney-Vento? For each program, identify whether or not the program receives any funds from HUD McKinney-Vento.

Beds for Households with Children: Identify the total number of beds for households with children that are available for each program. This household type includes beds for persons in households with (at least) one adult and one child, or households with an unaccompanied children only, or households with multiple children only (e.g., juvenile parent and child).

Beds for Households with only Children: Identify the total number of beds for households with children that are available for each program. This household type includes beds for persons with unaccompanied children only.

Units for Households with/only Children: Identify the total number of units for households with children that are available for each program. This household type includes units for persons in households with (at least) one adult and one child, or households with an unaccompanied children only, or households with multiple children only (e.g., juvenile parent and child).

Beds for Households without Children: Identify the total number of beds for households without children that are available for each program.
