It is prohibited for any CoC-funded, SSVF-funded, or ESG-funded housing project to serve individuals and families experiencing homelessness or at imminent risk of homelessness without the household first going through the Coordinated Entry System and being added to the waitlist.

Per HUD's standard outlined in the CoC program rating and ranking process, 95% of project entries must originate from the Coordinated Entry System (waitlist/prioritization policy). The remaining 5% of project entries must be documented by need and verified with the CES Director.

SECTION II: ADDED TO HOUSING WAITLIST AND ADMITTED IN THE SAME DAY

The prescribed method for placing admissions into program is allowing the client to remain on the waitlist for 1 business day. This allows for HMIS reporting and CES compliance reporting.

SECTION III: AVERAGE PRIORITY LIST POSITION

Г

This metric is based on the current month's admissions from the waitlist into your agency's programs and the average list position of your client(s). This metric is separated by waitlist for individuals and waitlist for families. The calculations for points are based on whether the average position falls in the top tier (0-33rd percentage), middle tier (34th-65 percentage) or lower tier (66 percentage or more).

PLANNING FOR LACK OF SCORES OR CUMULATING BOTH SCORES

If there is an instance where an agency has either served all individuals preidetermined formulas will calculate the factors to ensure that a lack clients from either lists does not affect the scoring. Additionally, if the agency has clients in both individuals and families served, the overall points total will be averaged based on the two (2) score categories.

SECTION IV: VI-SPDAT SCORE RANGES

Score ranges are dictated by the vairous intervention levels of the VI-SPDAT. Each score is classified in its range. Scores 0-3 usually recommended for Rapid Resolution/Diversion. Scores 4-7 usually recommended for Rapid Rehousing (RRH). Scores 8 or above are usually recommended for Rapid Rehousing (RRH) or Permanent Supportive Housing (PSH).

As each score is distributed the number of scores in each category is multiplied by the percentage points assigned to each category. The higher the VI-SPDAT score, the closer you move towards the maximum point value (20 points).
